## Letter from the President of the IWFFA

Welcome to the first annual IWFFA / Asbury Park, N.J. Women's Flag Football Tournament.

As the IWFFA builds its circuit of tournaments, our plan is to use this tournament as the northeastern regional.

The tournament director: Alison Wood, came up with the idea to host the tournament in a fun city such as Asbury Park. Much gratitude to Brad Hurtado of "Sand Blast" events for being a part of our social events for our flag football teams. We thank Alison, the power time team of women and wish much success to the newly formed New Jersey Women's Flag Football League (NJWFFL).

The International Women's Flag Football Association (IWFFA), is a unique woman's organization, because we use the sport of flag football to teach girls and women skills to then transfer to other areas of their lives, to better compete with the men in the business and political world. Other sports organizations use their sport for competition, and we specifically use flag football for the empowerment of females. Stress is NOT placed upon winning, but rather to: "experience the excitement", and to unite under one umbrella organization. And we use awards such as: All Stars, MVP's and team rankings to mark history for the sport.

This organization, which you are now member of, has created many "firsts" for the sport of female flag football.

The IWFFA originated from the very first national women's flag football association (NWFFA), and began to promote internationally becoming the very first international women's flag football association.

We began in 1997 introducing the sport in: Denmark, Norway, Sweden and Iceland and today have the: Nordic Region, for women's flag football. The IWFFA also has teams across the U.S.A. , Canada and Mexico and will bring to our 22nd Kelly McGillis Classic, which will be in Key West, Florida in February 3 - 11, 2013, new teams

from South America.

The nucleus of the IWFFA, our committee members, are not paid salaries. Instead we use our love and passion for the sport which fuels us to take the sport to the next level. Many thanks to: Nance Wernes and Rori Baldari for this event. The essence of our organization is to unite female flag football players and to: "let the women control their own sport". If you have the desire to help take the sport to its next level, we invite you to join us by simply sending us an email to: IWFFA@IWFFA.COM. We also invite you to join us every 3rd Thursday evening 9PM eastern time for our "On the Air with the IWFFA" radio show. Go to our website to click onto our radio link.

Many of the teams in this tournament are playing with IWFFA rules for the first time. I wish your team success in the competition, which does not have to include winning the championship. I hope your team has fun, learns new skills, bonds with other teams and takes home some great memories. We hope to see you in our other IWFFA tournaments, and in the meantime.....

Let the games begin!

## Pulmonary Fibrisis - Fundraiser

Allen "Randy" Carney was diagnosed with Pulmonary Fibrosis in 2005 and passed away from this catastrophic disease on August 26th 2006. Since then, his daughter Barbie Carney, president of the JSPPL, has set up a fundraiser for the disease.

Pulmonary fibrosis is a serious disease that causes progressive scarring of your lung tissue. The lung scarring that occurs in pulmonary fibrosis can't be reversed, and no current treatment has proved effective in stopping the ultimate progression of the disease. Some treatments, though, may improve symptoms temporarily or slow the disease's progress. Others help improve quality of life. The only way to conquer this disease is with your concern and support!!

Please support the cause when we do our 50/50 and also, the IWFFA is donating portions of the IWFFA membership dues collected from this tournament to help fight Pulmonary fibrosis.

Special thanks to Nicole Herbert, Kelli Dochterman, and Meg Hammond without whom this tournament would not be possible.

The IWFFA and NJWFF are proud to support JSPPL's fight against Pulmonary Fibrosis.
